

2050 Connected Conference

POWERING A COLLABORATIVE FUTURE

**A JOINT
BEAMA AND LIA
TWO-DAY CONFERENCE**

Endorsed by DESNZ, uniting manufacturers, supply chain partners, and industry leaders to drive Net Zero and circularity, in the built environment and energy markets.

Tuesday 1st and Wednesday 2nd July 2025

Royal College of Physicians,
11 St Andrews Place, London NW1 4LE

Closest station – Regent's Park

09:30 – 16:00

2050 Connected Conference

POWERING A COLLABORATIVE FUTURE

A JOINT BEAMA AND LIA TWO-DAY CONFERENCE

DAY 2 – NAVIGATING SCOPE 3: ADVANCING SUPPLY CHAIN ACTION

09:30 – 09:40 WELCOME ADDRESS

09:40 – 09:50 GOVERNMENT POLICY AND BUSINESS DECARBONISATION

DESNZ's perspective on fostering collaboration across the market and supply chain and the role of government regulation in enabling decarbonisation.

09:55 – 10:20 IN CONVERSATION WITH... BALANCING ENVIRONMENTAL SPECIFICATION REQUIREMENTS

DESNZ's perspective on fostering collaboration across the market and supply chain and the role of government regulation in enabling decarbonisation.

10:20 – 10:30 DIGITAL INNOVATIONS IN ENERGY MANAGEMENT

Learn about the transformative role of digital technologies in optimising energy use and enhancing sustainability in HVAC and lighting systems.

NETWORKING BREAK

11:15 – 11:45 ENGAGING MANUFACTURERS TO REDUCE SCOPE 3 EMISSIONS

Gain practical advice on engaging manufacturers to help reduce the scope 3 emissions of your projects and organisation.

11:45 – 12:10 MAKING GREEN CLAIMS

Learn how to identify and communicate genuine sustainability practices while avoiding greenwashing pitfalls.

12:10 – 12:40 MAKING SENSE OF LIFE CYCLE ASSESSMENT REPORTS

Understanding, interpreting, and using life cycle assessment (LCA) reports for your projects.

12:40 – 13:00 PANEL Q&A: UNDERSTANDING PRODUCT EMBODIED CARBON

Get answers to your questions about product embodied carbon from experts involved and supporting the Product Carbon Initiative.

NETWORKING LUNCH

14:00 – 14:30 PANEL: BALANCING COST AND NET ZERO GOALS

Join the conversation about balancing budget constraints with sustainability targets in project planning.

14:30 – 14:45 THE NET ZERO CARBON BUILDING STANDARD

An introduction to the key points and practical implications of the Net Zero Carbon Building Standard.

14:45 – 15:15 UPCOMING REGULATIONS TO DRIVE SUPPLY CHAIN DECARBONISATION

Stay ahead of the curve with an overview of upcoming regulations aimed at reducing emissions in your supply chain.

15:15 – 15:45 PANEL Q&A: HOW SUSTAINABLE PRODUCT DEVELOPMENT SUPPORTS INDUSTRIAL DECARBONISATION.

Hear from specifiers about the challenges and opportunities in driving sustainability through product requirements.

15:45 – 16:00 CLOSING ADDRESS: THE ROAD AHEAD
